GOOD
TO KNOW

Since 1974, more than 1 million of Super Pump[®] has been sold!

Pumps

IE3 ✓

All the three-phase motors are compliant with the **new IE3 standard** that promotes high-efficiency motors with the aim of **reducing installation energy consumption**.

YEARS OF WARRANTY

2 TOTALLY PARTNER +1

Super Pump[®] VSTD | Pump variable-speed

QUIETER: great acoustic comfort, thanks to pumps that rotate more slowly while filtering

UP TO 85% SAVINGS
on your electricity consumption*

MORE EFFICIENT: water is continuously filtered, treated and heated

SIMPLE: the user interface provides access to information and allows intuitive control of its 3 speeds:

- 1 **Low filtration speed:**
for normal 24-hour operation
- 2 **High filtration speed:** to clean up green water or to operate a suction cleaner
- 3 **Fast speed:** for maintenance operations (cleaning the sand filter, draining the pool, priming, etc.)

YEARS OF WARRANTY

2 TOTALLY PARTNER +1

*Energy savings of at least 65% generally achieved
